

JACKSON ENERGY AUTHORITY
OFF-PEAK GAS RATE SCHEDULE OP-1

AVAILABILITY

This schedule is available for gas service to any industrial customer contracting for not less than 250 THERMS of Maximum Daily Demand; provided alternate fuel facilities of adequate design and capacity may be required by the Authority.

Gas sold under this schedule shall be termed "interruptible" gas and shall be interrupted whenever, in the opinion of the Authority, the interruption is necessary in order to prevent an increase in Authority's previously established "Maximum Day's Use". Customers receiving gas under this schedule shall at no time take gas during any "Period of Curtailment".

If, for any reason customer taking gas under this schedule continues to take gas during any "Period of Curtailment", there shall become due and payable to the Authority, not as a penalty, but as liquidated damages, an amount equal to \$4.75 per therm for all gas taken. This amount is to be in addition to regular amounts billed in accordance with this rate schedule.

Customer shall agree that when such curtailment is deemed necessary, gas service may be curtailed upon one hour's notice by the Authority to customers. Customers on receipt of such notice shall cease use of gas until notified by Authority that such use may be resumed.

Gas supplied under this schedule is for the exclusive use of the customer and shall not be resold or shared with others.
